

Move α

- John wants Mary to go.
- John wants John to go \Longrightarrow
- John wants to go. Equi-NP deletion

160

Rule ordering Cont.

- Conditions for reflexivization:
 1. There should be two NPs that refer to the same entity (are co-referential)
 2. The co-referential NPs should be clausemates (should be in the same clause)

163

Rule ordering

- Wash yourself
 - *Wash you
 - *You will wash you.
 - Wash yourself, will you?
 - *You will wash you
- Imperative transformation & reflexivization transformation

161

Rule ordering Cont.

- Order: Imperative first
You will wash you \Longrightarrow * Wash you.
- Order: Reflexivization first
You will wash you. \Longrightarrow You will wash yourself. \Longrightarrow Wash yourself.

164

Rule ordering Cont.

- Imperative transformation deletes “you will”
- You will go home. \Longrightarrow Go home.
- Reflexivization transformation changes the second co-referential NP in the same clause into reflexive.
